

RABIN R

Frontend Angular Developer | Angular 17 | TypeScript Developer

☎ +91 9789376992 @ rabinr2607@gmail.com 🔗 [linkedin.com/in/rabinr](https://www.linkedin.com/in/rabinr) 🌐 www.rabinr.in 📍 Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Frontend Angular Developer with 3.7+ years of experience building scalable enterprise web and mobile applications using Angular, TypeScript, JavaScript, HTML5, SCSS, Tailwind CSS, and REST APIs.

Experienced in developing responsive Single Page Applications (SPA), reusable UI systems, frontend architecture, API integrations, and performance-optimized enterprise applications.

Strong expertise in Angular, Angular Material, RxJS, Angular Signals, Tailwind CSS, Git, and modern frontend engineering practices. Skilled in building scalable frontend architectures, optimizing application performance, and collaborating with cross-functional Agile teams.

Experienced in developing responsive mobile-first interfaces, cross-browser compatible applications, and enterprise dashboard systems for government and large-scale business environments.

TECHNICAL SKILLS

Frontend Technologies

Angular (v13-v20), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

Frameworks & Libraries

RxJS, Angular Signals, Angular Material, PrimeNG, Ionic Angular, Capacitor, Tailwind CSS

API & Backend

REST APIs, Web APIs, Web Services, JWT Authentication, RBAC, Node.js

Architecture & Performance

SPA Architecture, Lazy Loading, Code Splitting, OnPush Change Detection, API Optimization, Caching Strategies, Reusable Component Architecture, Frontend Architecture

UI & Design

Responsive UI Development, Mobile-First Design, Cross-Browser Compatibility, Web Accessibility (WCAG), UI/UX Best Practices

Tools & Platforms

Angular CLI, Git, GitHub, GitLab, Postman, VS Code, Chrome DevTools, NPM, PNPM

Methodologies

Agile, Scrum, Enterprise Application Development

PROFESSIONAL EXPERIENCE

Frontend Angular Developer

ITGalax Solutions Pvt Ltd

📅 06/2022 - 01/2026 📍 karapakkam, Chennai

Key Responsibilities

- Developed enterprise web applications using Angular, TypeScript, HTML5, SCSS, Angular Material, and Tailwind CSS.
- Built responsive Single Page Applications (SPA) with scalable and reusable frontend architecture.
- Integrated REST APIs, Web APIs, and secure backend services for enterprise applications.
- Designed reusable UI components and responsive cross-browser compatible interfaces.
- Optimized application performance using Angular Signals, RxJS, lazy loading, and OnPush Change Detection.
- Implemented JWT authentication, RBAC authorization, and secure API communication.
- Collaborated with cross-functional teams in Agile/Scrum development environments.
- Participated in frontend code reviews and supported team collaboration through reusable component development practices.
- Supported testing, debugging, code reviews, and release management activities.
- Managed source control workflows using Git and GitLab.
- Improved application performance by 50% and reduced API requests by 40% through frontend optimization.
- Delivered scalable enterprise applications supporting more than 10,000 active users.
- Experienced in developing secure and scalable enterprise applications with responsive user-centric interfaces.

KEY PROJECTS

Fiji Immigration Department — Enterprise Immigration Management System

🔗 <https://immihub.immigration.gov.fj/FIDPortal>

Technologies: Angular, TypeScript, RxJS, Angular Signals, Tailwind CSS, REST APIs

Responsibilities:

- Engineered scalable government portals including External User Portal, Internal Staff Portal, Police Verification Portal, and Payment Gateway integration.
- Constructed complex multistep forms, workflow systems, and enterprise validation modules.
- Generated reusable Angular components and shared frontend libraries.
- Integrated REST APIs and backend Web API services.
- Applied JWT authentication and role-based access control mechanisms.
- Fine-tuned UI performance and frontend scalability for enterprise usage.
- Developed responsive and mobile-friendly user interfaces for large-scale enterprise workflows.

PRIMS – Pension & Retirement Information Management System

🔗 <https://mss.primssolution.com/>

Technologies: Angular (Zoneless), Angular Signals, Angular Material, RxJS, REST APIs

Responsibilities:

- Built responsive dashboards and reusable UI modules for enterprise administration systems.
- Enhanced application performance using Angular Signals and optimized rendering strategies.
- Reduced API consumption through caching and RxJS stream optimization.
- Architected scalable frontend structure for high-performance enterprise systems.
- Refined user experience with responsive and optimized UI workflows.
- Improved frontend maintainability through reusable component systems.

VNPF – Vanuatu National Provident Fund

🔗 <https://play.google.com/store/apps/details?id=com.vnpfinsurance.app>

Technologies: Ionic Angular, Capacitor, REST APIs

Responsibilities:

- Constructed Android and iOS hybrid applications using Ionic Angular.
- Applied biometric authentication including Face ID and Touch ID.
- Streamlined API communication for low-bandwidth environments.
- Generated responsive mobile UI components and admin portal modules.
- Delivered seamless cross-platform mobile experiences.
- Optimized mobile UI responsiveness and accessibility for end users.

EDUCATION

Bachelor of Science in Information Technology

National College, Tiruchirappalli - 620 001.

📅 06/2018 - 04/2021

CERTIFICATIONS

Web Design & Development

Web D School, Chennai

ADDITIONAL INFORMATION

- Immediate joiner.
- Open to remote, hybrid, and full-time opportunities.
- Willing to relocate to Hyderabad, Bengaluru, Chennai, or remote locations.
- Strong problem-solving and debugging skills.
- Experience working in enterprise application development.
- Strong communication and team collaboration skills.
- Experience working in Agile/Scrum environments.
